

Sydney bulletin: Meet Ray Lee, General Manager of Operations DP World Australia, Sydney Terminal

19 August 2016

Message from the General Manager of Operations DP World Australia, Sydney Terminal, Ray Lee

It's been some time since I last worked at the Port Botany Terminal; some of you may remember me. For those of you who may not know I began my stevedoring journey in 1974. I worked in Australia for much of the early part, from stevedore/clerk through to Director of Operations for the region. More recently my business has taken me too many different countries such as Africa, the Middle East and Canada. I would never have thought that I would once again become the General Manager of an Australian terminal. I am extremely pleased to be offered the opportunity to return to where I essentially started all those years ago. I look forward to working with each and every one of you and making Sydney Terminal number 1 in Australia!

Lastly, with the launch of the new People Portal, we will keep you up to date with fortnightly bulletins which will include news, events and what you can expect in the Terminal. So if you have any feedback and suggestions about the bulletins please get in touch and email pbt.humanresource@dpworld.com.au

5 minutes Q&A with Ray Lee

What's one thing you would like everyone at DP World Australia to know about you?

I am always learning, they say it's never too old to learn! I am an approachable person and also a good listener – so come and say hello and introduce yourself!

What's at the top of your 'bucket list'?

Staying healthy, maintaining a good life style and being happy, sounds simple but that is all I want right now.

What are your favourite hobbies outside of work?

As many of you may know, I enjoy working out – in fact I have been going to the gym here after work! I also like doing outdoor activities such as skiing and climbing.

Where is your dream holiday destination?

This is a tough one – I have been to just everywhere that I wanted to go however I am hoping that I can visit the Northern Lights - The Aurora Borealis soon.

What do you look forward to at the end of the day?

Every day, I look forward to enjoying a nice meal and a glass of good wine with my partner.
